Reissue Applications

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,024,919 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error, which is relied upon to support the reissue application. The oath must be very specific in what the error is and could be rectified by stating in line 3 "first portion" should be changed to --second portion-- and in line 4 "second portion" should be changed to --first portion--. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1-24 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.

Applicants' must surrender the original patent or fulfill the requirements to establish the original patent is lost or misplaced. Either must be received prior to reissue. Applicants' should supply either prior with their next response to expedite the reissue. See MPEP 1416.

The amendment filed 2/14/02 proposes amendments to 14-24 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications (e.g. new claims must be underlined in their entirety and original claims when amended need to follow the underlining/bracketing procedure). A supplemental paper correctly amending the reissue application is required.

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The assignee has changed since the filing of the reissue. The consent of the new assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Wednesday and Friday.
